

Its about time! How can anyone even think about banning this showing when farenheit 9/11 was aired (and people actually paid to see it!) If someone does not choose to see this airing, they can simply abstain, change the channel, go for a walk! I am a registered democrat and I have had enough of their smear tactics and am now embarassed by their constant tap dance and double standards. Please air the show, and show it everywhere, not just in the states in question. How unfair is it to deprive the rest of the country of the opportunity to form an opinion from these facts. After all, the entire country had the opportunity to view farenheit 9/11 if they chose.

Thank you
